

Project Number (to be assigned by ABP) 200939

FISCAL YEAR 2011 ANNUAL PLAN PROJECT NOMINATION FORM

1. Nominating Party (Please note affiliation, i.e. Parish, Association, Organization)

Name: Pat Martin Affiliation: Camp/ House boat owner

Address: 1117 N Main St St. Martinville, LA 70582

Phone: 337-394-6058 email: PMartin776@aol.com

2. Statement of the Problem. (Please give a brief description of problem and current area conditions. If you think the problem relates to water quality, sediment accumulation, access, forest health, fisheries or other issues, please indicate as well).

Water not moving through swamp at any level under 15' @ Butte La Rose

Need water way on west side, one in Middle, and one on east side

1. Eugene—Gravenburg—Buffalo Cove

2. Gays slough—from pipe line at head, down thru Shaw burns to mile Pt. Bayou

3. Use channels thru Amerada—to muscle pt bayou then have 3 cuts at South end to get water to G.A., Poncho chute and Bee Hive. Logs at Buffalo Cove south end

3. Project Boundary: (attach map showing specific location of project area):

Parish: Iberia Water Management Unit (if known): Buffalo Cove

Lat/Long (if known): _____

4. Affected Area: (attach map of the area anticipated to benefit from project- if known)

Project Number (to be assigned by ABP) 200939

5. Action Description: (any proposed action or suggestion to rectify the problem. List any anticipated benefits from the project-if known)

Having 3 water paths thru swamp and 3-exits for water @ South end ensures that at least
one or two well function and be maintained

6. Survey and Preliminary Assessments: (Please attach any pertinent information or documents that you might have pertaining to the problem area for review and provide a list of the documents you have attached.)

7. Additional information regarding the project area, problem or proposed action (if known):

Follow up on any project is important. Equipment and personnel must be available year
round. Any project done will need to be maintained. This is not a one step—fix it for good
situation. Anything you try is better than nothing—but anticipate future work will be needed
as conditions change. Some work can only be done with high water—some only with low
water. Once water starts coming from north end and can get out south end, needed work in
between will be buinant.
